

Lang lebe Deutsch! Six Steps to Success

Keep your German knowledge alive with these ideas.

1. News

Stay up-to-date with what's going on in Germany and the world by using these websites. These news magazines or programmes and are aimed at young people, so the language used here is more accessible. Have a go. My favourite is "Logo".

2. Soap Nico's Weg

Follow the adventures of Nico, a new arrival in Germany and his tussles with the German language whilst testing your own.

3. YouTube German lessons

Try this great website. German YouTube channel with both topic and grammar-based videos, for a range of levels. Subtitles of both German and English allow for easy understanding.

4. German TV/Films

Use Netflix or Amazon if you can and turn on the subtitles to help. Don't forget to follow the rating guidance for these.

5. Music

Use Spotify to search for German music. You can get a good idea about a selection of bands from the Goethe Institut [here](#).

This site will also let you research films and football!

6. And ...your favourite?

Linguascope of course! Not Beginners though (Schade!!) but Intermediate.
