

Navigate to each orienteering marker in the correct order, to spell out the word on your sheet.

At each marker, either get a member of staff to sign under the letter or take a photo to show to staff at the end. (Your photos must be in the correct order to spell your word).

Use the compass app on your phone to navigate between the markers, as well as land features identified on your orienteering map.

The markers look like this.

Some are easily visible from the path, others need some investigation to locate them.

If you are struggling, look for a member of staff to ask or use the walkie-talkie to request directions.
